Fundamental Shifts to Accelerate Abundance

As I am sure you've noticed – things have been dramatically changing and shifting. What once worked (jobs, money, relationships, business) no longer work in the same way. It will take a fundamental shift in our own ways of thinking and approaching prosperity to allow us to thrive in this new and exciting environment.

Join us in this interactive workshop as we explore how to make those subtle yet powerful shifts to open up the flow of abundance in our lives. Learn to understand the keys of being wildly successful in this new and wondrous time on the planet.

You will learn:

- ∞ What's missing and why we must make the shift to prosper
- ∞ The new "inside-out" way of thinking and doing
- ∞ New ways to Find and Align your Purpose & Passions
- ∞ The Magic that Happens in Alignment
- ∞ Experiential Exercises to deepen understanding and begin reprogramming at the subconscious level.

Karen Sherwood has been a personal development trainer and coach for over 12 years and owns a small computer consulting business. As the Founder of the on-line Women's Small Biz Network and a Certified Prosperity Coach, she provides training and support to empower individuals to have an impactful internet presence, grow their business and attract more abundance into their lives.

After working with several fundamental principles and conscious shifts, Karen began to notice a pattern. Through meditation and practice she began putting these principles into action with her husband Scott and thus the "Prosperity Shift" was born. Together they are writing a book and Karen is leading workshops to share their exciting discoveries with others and to deepen their own understanding and knowledge.

Karen's passion is to introduce others to new possibilities and opportunities which they feel empowered to act upon if desired. She loves taking innovative or complex information and making it both amazingly easy to understand and practical to use. Her purpose is to inspire others to live passionate lives - the lives we all deserve to live!
